

CAPABILITY STATEMENT

COMPANY OVERVIEW

American Health and Safety LLC, dba AHS Services, is Alaska's leading project management and health and safety firm serving the construction industry. Since 2014, AHS Services has delivered expert consulting, training, and oversight as a minority, veteran-owned small business. The team specializes in project management, quality control, inspections, and safety compliance, helping contractors and agencies reduce risk, maintain regulatory compliance, and create safer, more efficient job sites.

CAPABILITIES

AHS Services provides OSHA-focused safety consulting, jobsite inspections, hazard assessments, workforce training, and project management support for construction projects. Services include Quality Control management, SSHO staffing, compliance audits, abatement guidance, safety program development, scheduling coordination, and on-site risk mitigation. AHS Services supports contractors and agencies in meeting federal, state, and project-specific safety requirements while maintaining efficiency and documentation accuracy. Integrated oversight across safety, quality, and project execution ensures compliant and reliable delivery from preconstruction through completion.

CORE COMPETENCIES

- Project Management
- Quality Control Management
- Site Safety and Health Officers
- OSHA and Workforce Safety Training
- Construction Inspections
- Compliance Audits and Documentation Support
- Hazard Assessments and Risk Mitigation
- Safety Program Development

DIFFERENTIATORS

AHS Services delivers integrated Quality Control, Site Safety, and Project Management under one accountable structure, reducing gaps between compliance and execution. Credentialed professionals holding OHST, CHST, and ICC certifications provide experienced oversight aligned with federal and construction standards. A field-tested approach bridges safety, quality, and operational coordination, helping owners reduce risk, maintain compliance, and keep projects on schedule without compromising performance.
